

# IRSHAD HOSSAIN

Student , Software Engineering

## CONTACT

- +880 1609 752833
- irshadrisad@gmail.com
- Mymensingh, Bangladesh
- github/Irshad-11

## TECHNICAL SKILLS

Programming Lang.

Library & Framework

Learning

C++ , Java , DSA

## PROBLEM SOLVING

- Beecrowd - 64 problems
- Codeforces - 12 problems
- LeetCode - 01 problem

## LANGUAGES

- English - Fluent
- Hindi - Fluent
- Urdu - Conversational
- German - Beginner

## PROFILE

I'm Irshad Hossain, a first-semester Software Engineering student at Gazipur Digital University (GDU). I'm passionate about creating personalized projects and single-page applications (SPA), constantly exploring new ways to solve problems through code and continuous learning. I bring strong typing skills in both Bangla and English and I'm eager to contribute to dynamic, growth-driven projects where I can combine my technical skills and creativity to make an impact.

## PROJECTS

### GradeEasy

[Project Link](#)

- Calculates CGPA based on course-wise GPA inputs
- Users can track academic performance across semesters
- Intuitive UI optimized for mobile and desktop
- Includes the full course outline of the SE department, providing centralized academic support for all students

Tech Stack: HTML, CSS, JavaScript

### Second Mind - PLMS

[On Going](#)

- Personalized Learning Management System (PLMS) A self-designed platform to organize and manage my academic life alongside personal growth. PLMS helps me track class notes, exam plans, study routines, important notices, and daily progress—all within a structured, searchable, and taggable system. Built to improve focus and consistency, it reflects my goal of balancing coursework with continuous self-development.

Tech Stack: Tailwind CSS, React, IndexedDB

## EDUCATION

BSc Engg. in Software Engineering

2023 - present

1st Semester | Gazipur Digital University, Dhaka
